PDM to PLM

siemens.com/software

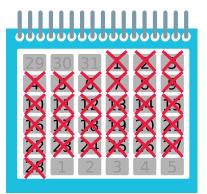

PDM takes control of designs, documents, BOMs and processes, primarily to drive engineering efficiency and productivity, but also to improve collaboration across the business.

PLM

PLM not only manages all product-related data, but also extends the benefits of PDM to support the whole business across the product lifecycle, with specialized applications for engineering, manufacturing, procurement, purchasing, suppliers, customers, sales and service.

1. Take the easy first step with PDM
