

DIGITAL INDUSTRIES SOFTWARE

Speed up innovation in consumer goods with the power of cloud-based product lifecycle management (PLM) software

In the highly competitive consumer goods market, companies are striving for:

A digital approach to program execution can enable:

PLM Solutions

PLM software offers consumer goods companies real-time visibility into project progress to manage the entire project lifecycle.

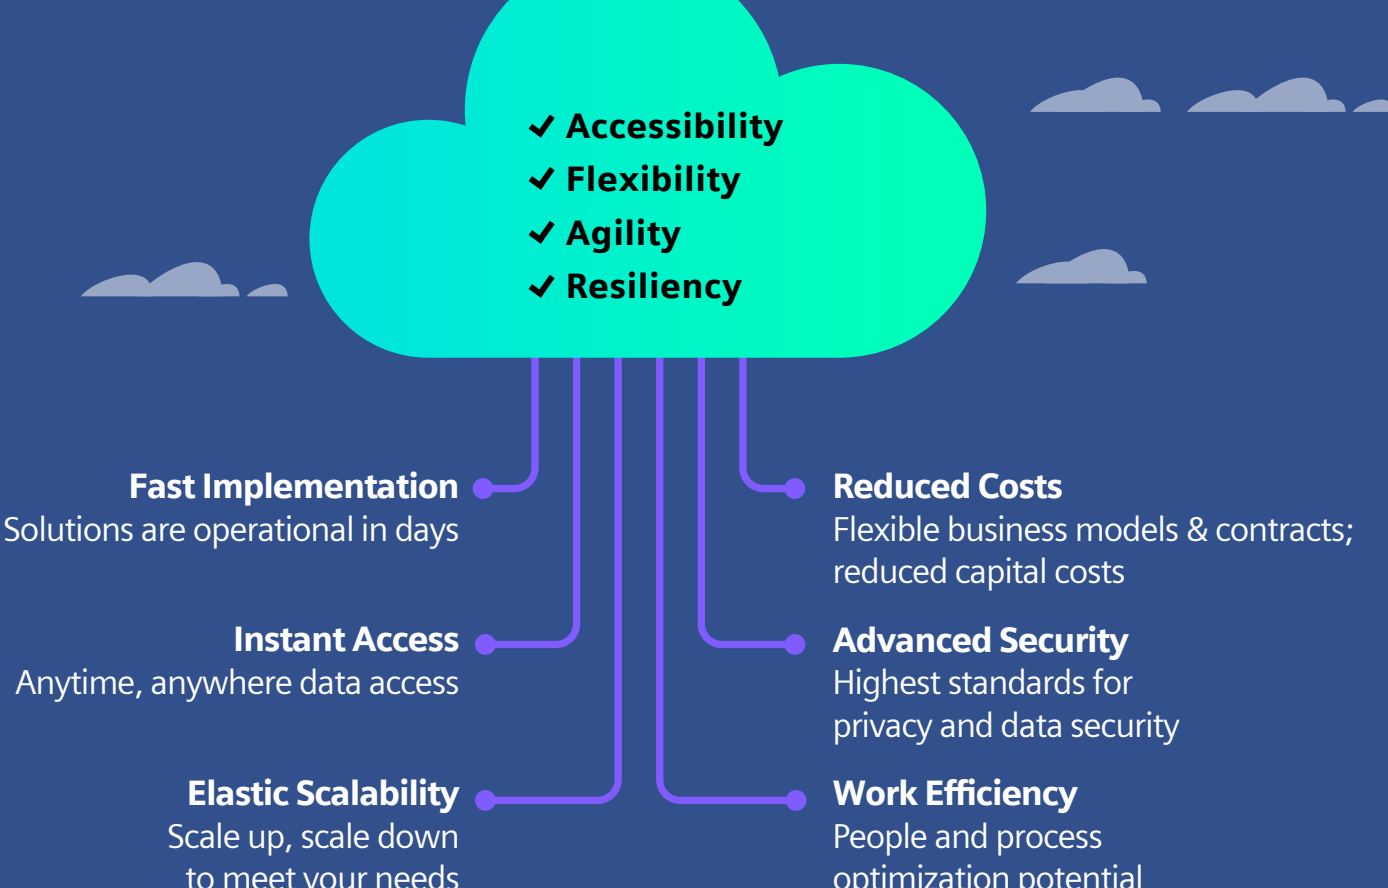

Why PLM?

PLM helps you to manage your digital twin efficiently so you can bring innovative products to market, faster.

- Reduce risk**
- Increase speed to market**
- Improve product quality**

Launch new product initiatives faster with the flexibility of SaaS PLM

Top two reasons businesses choose SaaS

Source: Forrester Research, Quantifying the Business Value of SaaS

SaaS provides superior data security & protection

When a company uses a SaaS PLM solution, data security is the responsibility of the solution provider and its cloud partner...As a result, the likelihood of data theft and product development-crippling malware is much less than with on-premises PLM.

Source: Lifecycle Insights, The Business Case for Cloud-Based SaaS PLM

SaaS typically beats on-premises on overall business value

ROI [return on investment] shows that SaaS is a good bet for long-term value.
